

c-series fin strap **never break a strap again...**

Whether diving is for business or pleasure; the time it takes to replace a broken strap can be costly. Don't lose another dollar or miss that once in a lifetime moment to strap problems.

Apollo's new c-series strap is a great asset to any diver. This commercial grade strap can be installed on your existing Apollo bio-fins as well as most other popular brand fins.

High quality stainless steel coil spring

- will not rust or break
- automatically adjusts to changing conditions
- no more stopping to tighten down a loose strap
- built-in to avoid problems with sand and debris
- reduces time required to slip on and off

Rugged rubber grip

- sturdy rubber grip adds comfort and stability
- finger loop makes slipping on and off a breeze even with heavy gloves

Available in two sizes

- M (10") recommended for use with sizes XS – S
- L (12") recommended for use with all other sizes
- \$85.00 per set
